Ok certainly, I will be in the office next week, and will put that Primacy Application binder in for copying.

We do not have absolute certainty with regard to items 5b and 5c since as you know there was nothing attached to the wet signature copy of the MOA. We think we know what letters these are, but its conjecture. I can send you what we think were intended to be included. I will look into that next week and send them to you.

Our 2012 memo indicated there was no documentation on the Poso Creek Santa Margarita Fm exemption and we were asking DOGGR at the time if you had any documentation. I understand DOGGR does not.

Michele

Hi Michele,

Thanks for your reply.

Yes, if you can please order a copy of our Primacy Application as well as the Additional information (item 5b) and Clarifying information (item 5c) identified in the signature page of the MOA as part of the 1425 Demonstration.

With regards to Poso Creek, we wanted to know what was submitted for the Santa Margarita AE. IF there was no supplemental information submitted for this, then that's it.

Thanks.

Jerry

Hi Jerry,

We have the original Primacy Application, it is a comb-bound document, and i can have that copied although it should be the same as what you have on your website. Please advise if you want me to order another copy of that document to be produced.

What are you referring to as far as documentation for the Poso Creek Santa Margarita Fm exemption? When we talked the other day we all acknowledged that the Poso Creek Santa Margarita Formation showed up on the MOA as a non-HC formation that was exempt. EPA noted in its 2012 aquifer exemption review that this formation was not included in the list of 87 historical formations used for disposal, and there was no record of why it ended up on the MOA. I am not sure what you are referring to with regard to documents we may have. Please clarify.

Thanks! Michele

Michele,

Can we include the Primacy Application documents, including the Poso Creek Oilfield Santa Margarita formation AE. This would basically replicate our files with EPA's so that there is no confusion as to what was submitted and approved. Thanks.

Jerry

Hi Jerry,

Our communications center will make one set of copies for you. They will likely take the rest of this week to complete the effort and then I will have them mailed to your office. You can probably expect them the end of next week.

Please send the exact mailing address you would like us to use.

Sincerely,

Michele
